

PONACHEM Compound GmbH

Continuously demand of following qualities

HDPE regrind from tanks with no barrier like EVOH

HDPE agglomerate from film

HDPE regrind – mixed coloured - from bottles

HDPE regrind – mixed coloured - extrusion, without DSD fraction

HDPE regrind – ex pipes - production scrap from pressure pipes no crosslinked

HDPE regrind – ex pipes - production scrap from other pipes no crosslinked

HDPE regrind – from sheets - no high molecular

HDPE regrind – injection - from bottle closures

HDPE regrind – injection - from boxes

PS regrind – mixed coloured - impact, injection + extrusion no additives

PP regrind homopolymer – mixed coloured for black, mi 10-20 (230/2,16)

ABS regrind – mixed coloured - no additives like flame retardants etc. , injection + extrusion

PMMA coating is ok
